AXON EASY S 180

- For wall / facade mounting
- Housing resistant to vandalism and temperatures between -25°C and +55 °C
- High efficiency of the ventilation system while maintaining low noise emissions < 60 dBA
- Service access on three sides of the charger
- Remote diagnostics and software updates

SAT ONE +

- CCS connector (7 m)
- ↔ Communication with Power Unit (fiber optic)
- Signal column

- ← Operation via intuitive 7" screen integrated with RFID
- ↔ Housing resistant to vandalism and temperatures between -25°C and +55°C

SAT BOX

- CCS connector (9.5 m)
- Cable reel (optional)
- Mounting pole (optional)
- Signal column (optional)

POWER SPLIT

3 x 60 kW
or 1 x 180 kW

Stationary housing version

Compatibility with vehicles

Charging up to 3 vehicles simultaneously

3 charging points
